

In the Drawings:

The attached sheets of drawings include changes to FIGS. 20-23.

Attachment: Replacement sheets

REMARKS

Claims 1 and 11-18 are pending. Claim 1 has been amended. Claims 2-10 have been canceled. Claims 11-18 have been newly added. No new matter is presented.

The drawings are objected to because Figs. 20-23 should be labeled as prior art. Replacement drawings are being submitted herewith, with these figures labeled as "Prior Art." Withdrawal of this objection is requested.

The drawings have also been objected to under 37 CFR 1.83(a). The Examiner asserts that the two cam follower rows aligned next to each other are not shown in the drawings. Applicant respectfully disagrees.

Fig. 12 shows a cam follower row 11a and a cam follower row 11b. As can be seen from Fig. 12, the cam follower rows 11a and 11b are aligned next to each other, as claimed. Accordingly, withdrawal of this objection is requested.

Claim 7 is rejected under 35 USC 112, second paragraph. This rejection is moot in view of the foregoing claim amendments and should be withdrawn.

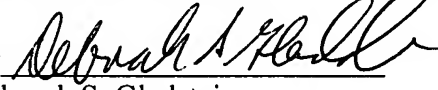

Claims 1-7 and 9 are rejected under 35 USC 102(b) as being anticipated by Galloway, U.S. Patent No. 4,898,044. This rejection is respectfully traversed.

Claim 1 recites "two adjacent ones of said rolling cam followers being engaged in said cam groove simultaneously, wherein said two adjacent rolling cam followers roll on respective ones of said opposed inner side surfaces of said cam groove." Galloway fails to teach or suggest these features.

In the event the U.S. Patent and Trademark Office determines that an extension and/or other relief is required, applicant petitions for any required relief including extensions of time and authorizes the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to **Deposit Account No. 03-1952** referencing docket no. **371312002100**.

Dated: October 30, 2006

Respectfully submitted,

By
